Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Why is it when you think you can fianlly get some where in this world you get shot back down. I am not a steady user of a cell phone but I do own two of them for personal reasons. Mainly for my kids sake and saftey do I carry one. So no matter what they can get a hold of mommy when they are sick at school and I am out doing the shopping to feed them. I want them to know that they can find me no matter where I am. If you raise the rate again. You will be making me pay more and more for use of the phone which takes away from my kids. And if I have to give that up because of the cost that is not fair to my kids when they need me. Just becuae some one sitting behind a desk who has every thing and never has to worry about where there next check is coming from would never know how much this affects the little people who do not have much. Do not raise the cost!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

paula
